

(Gao-File)

TRANSPORTATION DIVISION

DEC 8 1964

T-OCD-225

Chief, Audit Division:

Reference is made to your verbal request that the Transportation Division furnish telephonic rate and traffic information to employees of the Audit Division engaged in the audit of payments made for the account of the Central Intelligence Administration, as the only exception to the policy of this Division to have submitted in writing all rate and traffic information requests originating in the Audit Division.

For the purpose of assisting in the prompt audit of Central Intelligence Administration vouchers, employees of the Audit Division engaged on such audit may telephone Mrs. Dorothy Niemann (Extension-209) for (Ext. 4231) passenger rate and traffic information and Miss Eleanor Tilson (Extension-633) for freight rate and traffic (Ext. 5171) information.

Such rates or information as are requested will be furnished on an expedited basis but, at this time, it is not contemplated any formal record will be maintained here respecting either the data requested or the information furnished.

T. Chappell
Mr. J. R. Taylor
Mr. B. T. Abbott
Mr. Hoagland
advised - direction
of Mr. Beebe

It would appear desirable, for control purposes, that requests of the Audit Division be made by selected personnel and, if you agree, it will be appreciated if the names of the employees selected be furnished this Division.

Harrell O. Hoagland

Chief, Transportation Division.
